OCTOBER, 2016

## Cal Poly Pumpkin Festival 2016 By Bob Smith

The event this year is October 8 and 9, Saturday and Sunday. It will run from 8 am to 5 pm each day. Setup can be Friday, October 7 if you like otherwise setup on Saturday and Sunday will be between 6:00 am to 7:30 am.

All trucks must be out of the show area by 7:30 am. Trucks will not be allowed back into the show area until after the public has left which will be around 5:30 pm. You may bring your equipment out to show 1 day or both days. There will be security so you may leave your equipment overnight. As last year, you will run and be responsible for your own equipment. I have not received confirmation but parking will be closer this year in lot U. The show area will be large so there is no limit as to how much equipment you want to bring.

We must put on a good show for the Cal Poly folks. Location is in the field in front of the Farm Store at the corner of Temple and S. Campus.

## President's Report By Ron Haskell

First, I want to remind everyone there will be no meeting in October because we have an abundance of shows. Starting with Aliso Viejo on the first, then Cal Poly on the 8th and 9th, and the Glendora Pumpkin Festival on the 15th. And for those of us who go to Vista, the weekends of 15 & 16 and 22 & 23. I don't want to hear anyone complaining you have nothing to do this month.

With the weather finally cooling off a bit, it is time to get back out in the shop and work on that engine or cart you have been putting off finishing. Remember if you are having a problem with welding, machining, or some other fabrication there are a number of members who have expertise in those areas and are willing to help. I am looking forward to the time we will have our own shop to work in to help members with their projects.

It's that time of year again when we need to think about election of officers for next year. At the last meeting Roger Hahn was not there to defend himself and was named election chairman. If you get a call from him, seriously think of running for an office, we are all friends and will help you to have a fun experience serving your club.

I hope to see you at one of our events in the coming weeks.

## Upcoming Events

By Roger Hahn

**City of Aliso Viejo Founder's Day Fair, October 1, Saturday**

**Set up: 11:00 am, Show: 1:00 pm to 6:00 pm (the set up and show times have been changed for this year)**

The city of Aliso Viejo always looks forward to having WAPA display at their Founder's Day Fair. Our engines and historical displays fit into the Fair's theme of a glimpse into the way life was before Aliso Viejo became a city. There will be food, snack and information booths, carnival games and rides, attractions, interactive historic exhibits and live entertainment. WAPA has the same location as in years past. We will be grinding corn and giving it away free to all interested spectators. The address is 100 Park Ave., Aliso Viejo. Parking is near our location and water will be available.

**Cal Poly Pumpkin Festival, October 8 & 9, Saturday and Sunday**

**Set up: all day Friday, or Saturday, 6:00 am to 7:30 am, Show: 8:00 am to 5:00 pm**

Bob Smith has an article in this issue of the Hit 'N' Miss discussing WAPA's participation in this year's festival. WAPA members should bring engines, tractors, old washing machines and historical items for display. WAPA members can display one day or both days; it will be OK to leave your equipment in place on Friday and Saturday nights, the area will be secured. Since we are listed as a sponsor for the event we need to show support to Cal Poly to let them know we appreciate their support of WAPA.

**Glendora Pumpkin Festival, October 15, Saturday**

**Set up: 8:00 am, Show: 10:00 am to 4:00 pm**

This event always draws a lot of families from the Glendora area. The show takes place at the Centennial Heritage Park in Glendora. The address is 625 Mauna Loa Avenue. Easy directions: 210 exit Grand Ave. and go north to Mauna Loa Ave. Turn right and proceed on Mauna Loa until the street dead ends. Go through the flood control gates approximately 150 yards. An old ranch house and the original workshop from the Rain Bird Sprinkler Company are located at Heritage Park. John and Valerie DeLazzaro, (714) 412-2541, are organizers of this show.

## Dinah of the Desert

Submitted by Bob Smith

Written by Morgan P. Yates, Printed by AAA

Looking like an errant contestant in a steampunk monster truck rally, the derelict steam tractor "Old Dinah" receives curious visitors in this undated Death Valley view. By this time, the tractor was already a relic of a bygone era of mining ventures and moneymaking schemes gone awry.

Purchased in 1894 from Best Manufacturing Company of San Leandro, Old Dinah was originally employed to haul borax in the Calico mining district near Barstow. With a top speed of 3 to 4 mph, a voracious appetite for fuel and water, and a propensity for breaking down, the cantankerous machine made an ill-suited replacement for the 20-mule teams made famous in soap ads and radio and TV shows. A narrow-gauge railroad eventually replaced both fuel and tractor.

Merchant Joseph Lane purchased the lumbering steamer in 1909 to haul freight to the Keane Wonder Mine, a gold mine on the western slope of the Funeral Mountains in Death Valley. But the old tractor couldn't take the strain of hauling freight on the 26-mile run, and ruptured its boiler on Daylight Pass after just a few months of service. There she slumbered for years, rusting away in her dotage.

Widespread automobile use triggered a rush of tourism to Death Valley beginning in the 1920's. Entrepreneurs played up the mystique of the prospering era to enhance the tourist experience. In 1932, the Pacific Coast Borax Company cast Old Dinah in a new role as a roadside attraction at its Furnace Creek Resort, after spiriting the tractor away from its resting place shown here. Old Dinah will never crush a row of sedans like "Bigfoot" or "Grave Digger," but she still attracts the curious by the carful.

### In Memoriam

**Mt. Wilson Tour**  
**By Bob Smith**

On Sunday, September 4, Ken and Larry Evans along with a docent, Nik Arkimovich conducted a tour for our Cal Poly friends and WAPA members Mary Holz-Clause, Reg Clause, Craig Walters and his wife Debra.

You couldn't have asked for a better day. It was cool and sunny. Nik did the tour of the 60" telescope and 100" telescope and Ken and Larry ran the 50hp Fairbanks and showed them the machine shop. Nik was very knowledgeable in the history of Mt. Wilson and the telescopes. No one could stump him with a question. I have to say, Ken and Larry are also quite knowledgeable of Mt. Wilson. They have performed some very difficult repairs and upgrades to systems on the telescopes and domes.

### Marina del Rey Show

### Fort MacArthur Show By Bob Smith

I don't know if it was the good weather down by the ocean or the great chow served to us for lunch but we had over 25 members in attendance with over 65 engines and 2 tractors. 35 of the engines were a collection of Ohlsson & Rice displayed by Dave Ruhland. The lunch provided was meatloaf cooked on old army gas stoves along with mashed potatoes, mac & cheese, and tossed salad. We always tell everyone that wants us to put on a show that the way to WAPA's heart is through our stomach.
