DECEMBER, 2017

**Gunther's Yard**  
**December 3, Sunday**  
**Showtime 9:00 am - 2:00 pm**

Although this isn't an official WAPA event, we are always invited to come out and have a good time. Bring an engine, or just come to join the festivities. George Gunther amassed an impressive collection, and always had an open house this time of year. After his passing, his family continued the tradition. In addition to WAPA, the Military collectors, Model T Club, and antique motorcycle guys will be attending. There will be hot dogs and drinks available for purchase. Although it's not requested by the Gunthers, it's traditional for participants to bring some kind of canned food or toy which will be donated to the Long Beach Mission. The address is 2380 Curry, in Long Beach, just south of the 91 and Cherry.

**WAPA 2018 Membership Renewal**  
**By Jim Davis, Membership Director**

All WAPA membership renewals are due on January 1.

Thank You to those members that have already renewed by mail.

Renewal via PayPal is also an option. To pay by PAYPAL see W.A.P.A. web site <http://wapa.us/contact.html> and hit the "Pay Now" button.

A table will be set up at the WAPA Winter Bash at Larry Madole's yard on Saturday, Jan. 13, 2018, to accept member's 2018 renewals.

I would appreciate it if all Life Members returned the Membership Renewal Form sent out in the November Hit & Miss so we can ensure our membership records are up to date.

Thanks for everyone's support and help.

**President's Report**  
**By Ron Haskell**

WAPA really ended the show year with a big bang. First with the large showing at the Flabob Airport Veteran's Day show, and second with Leroy's cannon shots keeping us on our toes. We had 27 engines and numerous tractors, it was hard to count the tractors as they were running around and parked in different areas. Great show guys and gals. The weather was perfect, the crowd large, and a good time was had by all. Especially good to see Ernie and Dorothy Groce out and about visiting the display.

Our next big gathering will be Larry Madole's Winter Bash on January 13, start now gathering your items for sale and items to put in the silent auction, Larry said his yard is not full of current projects and we can take some items in at any time the yard is open, be sure to check for a good place to put them before leaving.

The progress for getting a WAPA home at Cal Poly is moving very slowly, there is always hope for the new year. It would be nice to have a meeting place of our own, have access to our library and a single place to keep all the club memorabilia.

Thanks to you all for your support this past year, and have a very Merry Christmas and a Happy New Year.

**WAPA BOARD OF DIRECTORS MEETING**  
**SATURDAY, DECEMBER 2**  
**9:00 A.M.**  
**AGRISCAPE BUILDING AT CAL POLY**  
**(NEXT TO THE FARM STORE)**

**Fall in the Farm at Fairplex  
By Bob Smith**

This show was the first time we attended and it turned out to be rather nice. We were given a set up area under a roof which was nice since the weather report called for rain, but it never did. Our display was for kids to see and understand the working of the gas engines as they were used in early farming. The smoke and noise drew a good flow of spectators through our working display. Members attempted to explain how these engines enhanced farming in the early 20<sup>th</sup> century. Thank you all for your participation.

**WANTED:**

Larry Madole is looking for vintage 10 gal milk cans. If you have some or know where some are give him a call. 909-215-5704

Ron Haskell is looking for a stationary bicycle to make a pedal powered generator for a hands-on display. Call him at 951-233-0551.

## Tractor Move

By Bob Smith

At the September board meeting I asked if anyone with a trailer would like to help with moving the 2 remaining WAPA tractors from Larry's yard to Cal Poly. Paul Liverman came forward and offered.

On November 8 we met at Larry's yard to start the move. Stevie Mote had the day off from work so he came along to help. We started with the Minneapolis Moline "U". This is a good sized tractor but Paul's big winch on his trailer had no problem pulling this beast up the ramps and into position ready to chain down. The unloading was easy. We pulled it off with a forklift and pushed it into position under a roof with the forklift. We headed back to Larry's to do the same process on the McCormick Deering 10-20. All went well, no tractors were damaged, nobody got hurt, and fun was had by all. Thank you Paul and Stevie.
